HOUSTON COMMUNITY COLLEGE SYSTEM

Property and Casualty Insurance Program Services

Project No. 15-22

EXPLANTION OF SECURITY SYSTEM

TD Industries, Inc. maintains and test the security systems at all Campuses, HCCS Police Department monitors locations from 3100 Main. There are also Police Officers who are on premises during classroom hours and patrol all locations at night.

All Campuses have a Security Alarm, some have cameras and some are monitored.

EXPLANTION OF ARMORED CAR SERVICE

Dunbar Armored is the vendor providing armored car services to the district campus and six HCC colleges and associated satellite campuses. Exact locations and pick up schedules are confidential.

Subject: HCC Child Dev Lab Enrollment 2014-2015

Arthemise,

Risk Management is updating HCC Property & Casualty Insurance RFP for 2015/2016. Please review the enrollment chart below and provide the current child development lab enrollment numbers for 2014/2015.

Please email current enrollment to gwen.drumgoole@hccs.edu or alice.lee@hccs.edu asap or by Thursday, June 11, 2015.

If you have any questions, please feel free to contact Gwen Drumgoole at 85100.

Thanks.

Alice Lee

Gwen Drumgoole
HCCS Risk Management
3100 Main Street
Houston, TX 77002

Dear Ms. Drumgoole:

The following is a list of ongoing series programs and specials that were produced in-house by HCCTV during the last fiscal year and are proposed to continue to be produced in the future. Other college-sponsored and community-based activities are covered on a case-by-case basis.

Series Programs

- ***HCC Board of Trustees Meeting.*** Gavel-to-gavel coverage of the monthly meeting of the HCC Board of Trustees.
- ***Community Bulletin Board.*** A weekly 30-minute text-based service that features the activities and accomplishments associated with Houston Community College and non-profit community-based organizations.
- ***HCC Special Events.*** Live-to-tape coverage of events and activities around HCC. Activities occur at all six colleges, as well as in the HCC Administration building, Distance Education, Contract Training and Continuing Education, workforce training and academic programs are also covered.
- ***The HYPE on HCC.*** A monthly 30-minute student newscast of HCC activities throughout all six colleges and the district.
- ***Up-to-the-Minute at HCC.*** A weekly one-minute news brief (with and without video B-roll and soundbites) of HCC activities throughout all six colleges and the district.
- ***Global Outlook.*** A monthly 30-minute show highlighting the Asian culture, events and people at HCC and in the Houston metropolitan area.
- ***@Your Service.*** A monthly one-minute promotional video highlighting non-profit organizations.

- **No Barriers.** A monthly 30-minute show, hosted by Ana Calvo from the HCC students with Disabilities Office, that highlights the abilities and strengths of students and others with recognized disabilities.
- **Dialogue Houston.** A bi-monthly 60-minute show, hosted by community affairs leader, Laurence Payne, highlighting community concerns, events and information with a focus on education, political views and current news,
- **Eye On HCC.** A monthly one-minute promotional video featuring HCC faculty and staff promoting current activities and information at HCC.
- **Houston On the Move.** A monthly 30-minute show hosted and produced by the Houston area Hispanic Media Professionals, a non-profit organization, that highlights news around Houston and the Hispanic community,
- **Common Cents.** A 30-minute monthly show hosted by Dr. Ruth Olison and HCC business instructors giving information on money management, business in Houston and real estate.
- **Promotional Videos.** Various length videos promoting Houston Community College faculty, staff, trustees or events.
- **Community Service Videos.** Videos produced by HCCTV for various non-profit groups and organizations.
- **Innovation In Education.** A 30-minute monthly show highlighting HCC and the world's innovative initiatives for community colleges.
- **Food Without Borders.** A 30-minute monthly show with HCC international instructor demonstrating multi-cultural menus from around the world at HCC.
- **Movie Makers Academy Movie Review.** HCC student movie makers review industry movies.

Subject: 2015-16Property & Casualty Ins RFP

Candace,

Gwen and I are updating the Property and Casualty Insurance for FY 2015-2016. Please provide the # of Continuing Education students for Summer 2014, Fall 2014, and Spring 2015, for the Special Risk Accident Insurance. It would be helpful to update last year chart. See below.

The Special Risk Accident policy covers student in Health Science, Truck Driving and Upward Bound programs.

Please email the current enrollment to gwen.drumgoole@hccs.edu and alice.lee@hccs.edu asap or by Thursday, June 11, 2015.

If you have any questions, please feel free to contact me.

Board of Trustee, HCCS

About the Board of Trustees

The Board of Trustees is the official governing body of Houston Community College. The Board is composed of nine members who are elected from single-member districts and who serve without remuneration. Board members are elected to staggered six-year terms. The Board has final authority to determine and interpret the policies that govern HCC. As part of their duties, the trustees maintain a full schedule of community service, public appearances, speaking engagements and legislative affairs on behalf of HCC. Board members represent an impressive mix of individual talents and professional backgrounds enabling them to provide governance of the highest quality.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Houston Community College Foundation
Houston, Texas

We have audited the accompanying financial statements of Houston Community College Foundation (the Foundation), which comprise the statements of financial position as of August 31, 2014 and 2013, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Houston Community College Foundation as of August 31, 2014 and 2013, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Caru, Riggs & Ingram, L.L.C.

Houston Community College Foundation Notes to the Financial Statements

NOTE 1: ORGANIZATION

The Houston Community College Foundation (the "Foundation") was organized in the State of Texas on May 13, 1976 to function as a nonprofit foundation. The Foundation's purpose is (1) to maintain, develop, increase and extend the facilities and services of the Houston Community College System (the "System"); (2) to provide broad educational opportunities to the System's students, staff, faculty and the residents of the geographical area that the System serves; (3) to solicit and receive by gift, grant, devise, or otherwise, property, both real and personal, and to manage and administer the same, and (4) to make contributions, grants, gifts and transfers of property to or for the benefit of the System, or to or for the benefit of other organizations identified and associated with the System and which are tax-exempt organizations.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Statement Presentation

The financial statements of the Foundation have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. The Foundation's resources are reported for accounting purposes in separate classes of net assets based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

Unrestricted – Net assets that are not subject to donor-imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of the Board of Directors.

Temporarily Restricted – Net assets subject to donor imposed stipulations that may or will be met either by actions of the Foundation and/or passage of time.

Permanently Restricted – Net assets subject to donor-imposed stipulations that they be maintained permanently by the Foundation. Generally, the donors of these assets permit the Foundation to use all or part of the income earned on the related investments for specific or general purposes.

Fair Value Considerations

The Foundation uses fair value to measure financial assets and liabilities. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The fair value hierarchy established and prioritized fair value measurements into three levels based on the nature of the inputs. The hierarchy gives the highest priority to inputs based on market data from independent sources (observable inputs-Level 1) and the lowest priority to a reporting entity's internal assumptions based upon the best information available when external market data is limited or unavailable (unobservable inputs-Level 3).

Houston Community College Foundation Notes to the Financial Statements

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The fair value option allows entities to choose, at specified election dates, to measure eligible financial assets and financial liabilities at fair value that are not otherwise required to be measured at fair value. If an organization elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. The Foundation did not elect the fair value option for the measurement of any eligible assets or liabilities.

The Foundation's other financial instruments (primarily cash and cash equivalents, contribution receivables and payables) are carried in the accompanying statements of financial position at amounts which reasonably approximate fair value.

Cash and Cash Equivalents

For purposes of the statements of cash flows, the Foundation considers all highly liquid investments with initial maturities of three months or less to be cash equivalents. Cash and cash equivalents held in money market mutual funds are reported as investments instead of cash equivalents because the Foundation holds those funds as an endowment.

Contributions Receivable and Promises to Give

Contributions receivable are amounts recorded from unconditional promises to give by third parties. Unconditional promises to give are recorded at net realizable value if expected to be collected in one year. Amounts that are expected to be collected in future years are discounted to estimate the present value of future cash flows, if material. Conditional promises to give are recorded as refundable advances when received, and are recognized as revenue when the conditions have been met.

If contributions receivable become doubtful of collection, allowances are made to the extent the amounts are determined to be doubtful, and are charged to expense. If doubtful amounts are subsequently determined to be uncollectible, they are written off against allowances in the period determined. The Foundation considers contributions receivable to be fully collectible.

Investments and Investment Return

Investments are mostly comprised of endowed funds invested for the purpose of generating income for scholarships. The Foundation carries investments in marketable securities at fair value. Investment return is reported in the statements of activities as an increase in unrestricted net assets unless otherwise specified by donor restrictions. Unrealized gains and losses are included in the change in the net assets in the accompanying statements of activities. Donated marketable securities are recorded as contributions at their estimated fair values at the date of donation.

Houston Community College Foundation Notes to the Financial Statements

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Under the laws of the State of Texas, the Board of Directors may appropriate for expenditure, for the uses and purposes for which the endowment is established, the net appreciation, realized and unrealized, in the fair value of the assets of an endowment in excess of the historic dollar value. The Board of Directors determines the amount of such appropriation annually. The aggregate unrealized gains and losses on donor-restricted endowment net asset balances are included in temporarily restricted net assets in the financial statements.

Contributions

Contributions are recorded as revenue at fair value when an unconditional commitment is received from the donor. Contributions received are classified as unrestricted, temporarily restricted, or permanently restricted support depending on the existence and/or nature of any donor restrictions.

Support that is restricted by the donor and is to be used in future periods is reported as an increase in temporarily restricted net assets in the reporting period in which the support is recognized. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions. Support that is restricted in perpetuity by the donor is recorded as permanently restricted net assets. In accordance with the donor restrictions, income earned from permanently restricted net assets are recorded as temporarily restricted net assets until such income is released from restrictions.

Donated Materials, Services, and Facilities

The Foundation receives donated materials, services and facilities from the System and third parties. The values of these items are reflected in unrestricted revenues and program and administrative expenses. Materials, services and facilities donated to the Foundation by the System are mostly valued at the actual costs incurred by the System in making those in-kind donations. Materials, administrative services, and office space donated from the System to the Foundation are further described in Note 10 of these financial statements. Approximately \$85,000 and \$177,000 have been reflected in the accompanying financial statements for services, materials, and equipment donated by other parties to the Foundation during 2014 and 2013, respectively, for the benefit of various departments at the System.

Federal Income Taxes

The Internal Revenue Service has determined that the Foundation is a publicly supported organization as defined in the Internal Revenue Code, Sections 509(a)(1) and 170(b)(1)(A)(vi). Accordingly, the Foundation is exempt from Federal income taxes under Section 501(c)(3) of the Internal Revenue Code.

The Foundation accounts for uncertain tax positions, when it is more likely than not, that such an asset or a liability will be realized. As of August 31, 2014, management believes there were no uncertain tax positions. The Foundation's federal tax return remains open to examination for a period of three years following its filing with the taxing authority.

Houston Community College Foundation Notes to the Financial Statements

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates that have the most impact on financial position and results of operations primarily relate to the collectability and present value of contributions receivables, the fair value of investments, and the allocation of expenses among functional areas. Management believes these estimates and assumptions provide a reasonable basis for the fair presentation of the financial statements.

Subsequent Events

The Foundation has evaluated subsequent events through the date the financial statements were available for issuance on February 24, 2015. No matters were identified affecting the financial statements and related disclosures.

NOTE 3: PROGRAM AND SUPPORTING SERVICES

The cost of providing the various programs and activities of the Foundation has been summarized on a functional basis in the accompanying statements of activities.

The following program and supporting services are included in the statement of activities:

- Scholarships are payments made to the System for tuition and books on behalf of specified students, staff, and faculty of the System and the residents of the geographical area that the System serves.
- Grant distributions are payments made to the System for student societies and departmental needs of the students, staff, and faculty of the System.

Houston Community College Foundation Notes to the Financial Statements

NOTE 3: PROGRAM AND SUPPORTING SERVICES (Continued)

- Fundraising activities are directed at soliciting and receiving funds, gifts, grants, and property to enable the Foundation to fulfill its purpose.
- Administration consists of general supporting services that are necessary for the Foundation's daily operations and coordination of program activities.

NOTE 4: CREDIT RISKS

The Foundation is subject to concentration of credit risk relating to marketable equity securities and it is at least reasonably possible that changes in net values of investment securities will occur in the near term and that such change could materially affect the amounts recorded in the statement of financial position. Marketable equity securities consist primarily of equity securities, bonds, mutual funds and alternative investments, which could subject the Foundation to losses in the event of a general down turn in the stock market.

At times throughout the year, the Foundation may maintain certain bank accounts in excess of the Federal Deposit Insurance Corporation (FDIC) insured limits. The Foundation has not experienced any losses from maintaining cash accounts in excess of the federally insured limit. Management believes that it is not exposed to any significant credit risk on cash accounts due the strength of the financial institutions in which the funds are held.

As of August 31, 2014, one donor accounted for 83% of contributions receivable. In 2014, approximately 16% of contributions were provided by one donor. As of August 31, 2013, one donor accounted for 74% of contributions receivable. In 2013, there were no significant contributions by donors.

NOTE 5: FAIR VALUE INSTRUMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The three tier fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

Houston Community College Foundation Notes to the Financial Statements

NOTE 5: FAIR VALUE INSTRUMENTS (Continued)

The three levels of inputs that may be used to measure fair value are as follows:

- Level 1: Quoted market prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than Level 1 inputs that are either directly or indirectly observable such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable; or other inputs not directly observable, but derived principally from, or corroborated by, observable market data.
- Level 3: Unobservable inputs that are supported by little or no market activity.

Investments in equity securities with readily determinable fair values are carried at fair value based on quoted market values in active markets (Level 1). Investments in bonds are carried at fair value based on estimates using recently executed transactions, market price quotations, and pricing models that factor in, where applicable, interest rates and bond or credit default swap spreads (Level 2). The value of certain alternative investments that are not actively traded on an exchange shall be determined by obtaining quotes from brokers that normally deal in such securities or by an unaffiliated pricing service that may use actual trade data or procedures using market indices, matrices, yield curves, specific trading characteristics of certain groups of securities, pricing models or a combination of these procedures (Level 2). Other alternative investments are carried at fair value based on net asset value ("NAV") as a practical expedient, as provided by the investment managers or administrators of such alternative investments (Level 3). These alternative investments value the underlying investments generally using market value when available, and otherwise will use principles of fair value applied in good faith. Because of the inherent uncertainty of valuation, fair value may differ significantly from the value that would have been used had readily available markets for the investments in alternative investments existed.

Investments are exposed to various risks such as interest rate risk, market and credit risks. Because of these risks, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and such changes could materially affect the amounts reported in the statements of financial position and the statements of activities.

The Foundation's Level 3 investments have been valued using unadjusted third-party transactions and quotations, unadjusted historical third-party information, or the unadjusted net asset value of the investments in private investment companies. No unobservable inputs internally developed by management have been applied to these investments.

Houston Community College Foundation Notes to the Financial Statements

NOTE 5: FAIR VALUE INSTRUMENTS (Continued)

The Board of Directors has adopted a specific investment objective for the Foundation. The investment objective is to invest all endowments, local, or other available funds to optimize the return on investment to the extent possible, balanced with the appropriate level of risk. The objective is pursued by holding mostly fixed income investments such as money market funds (cash equivalents), corporate bonds, publicly traded equities, mutual funds and alternative investments.

The fair value of financial assets measured on a recurring basis are as follows:

	Quoted Market Prices in Active Markets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)
August 31, 2014:			
Bonds	\$ -	\$ 1,588,952	\$ -
Equity securities	853,111	-	-
Mutual Funds			
High yield municipal (1)	186,073	-	-
Municipal (2)	266,010	-	-
Foreign markets (3)	859,710	-	-
Growth stocks (4)	253,033	-	-
Fixed income security (5)	265,741	-	-
Treasury funds	354,157	-	-

Treasury funds	642,162	-	-
Alternative investments	3,448,290	296,863	252,271
Total Investments	\$ 5,721,692	\$ 1,227,576	\$ 252,271

Houston Community College Foundation Notes to the Financial Statements

NOTE 5: FAIR VALUE INSTRUMENTS – CONTINUED

The Mutual Funds have been classified based on the general characteristic of the investment focus and strategy with further classification below:

- (1) The investment seeks federal tax-exempt current income and taxable capital appreciation through investments mostly in municipal securities.
- (2) The investment seeks current income exempt from federal income tax, consistent with capital preservation through investments mostly in municipal securities.
- (3) The investment seeks long - term capital appreciation through investments in emerging and foreign markets, as well as in small and large value securities.
- (4) The investment seeks to track performance of a benchmark index that measures the investment return of large-capitalization growth stocks.
- (5) The investment seeks to maximize total return (capital appreciation and income), adjusted for the federal maximum tax rate, to the extent consistent with preservation of principal by investing primarily in fixed-income securities.

The following summarizes the investment return in the statements of activities for the years ended August 31:

	2014	2013
Dividend and interest income	\$ 102,398	\$ 28,270
Net realized and unrealized gain	653,994	45,749
	\$ 756,392	\$ 74,019

The following is a reconciliation of Level 3 investments for which significant unobservable inputs were used to determine fair value for the years ended August 31:

	2014	2013
Balance, beginning of year	\$ 252,271	\$ 483,317
Purchases	852,055	54,484
Sales	-	(281,655)
Net realized gains	44,674	3,569
Net change in unrealized appreciation	1,010	12,446
Transfers from (to) level 2	5,314	(19,890)
Balance, end of year	\$ 1,155,324	\$ 252,271

**Houston Community College Foundation
Notes to the Financial Statements**

NOTE 6: CONTRIBUTIONS RECEIVABLE

Contributions are due to be collected as follows at August 31:

<i>August 31,</i>	2014	2013
Less than one year	\$ 1,508,897	\$ 2,105,418
One to five years	3,141,750	4,647,125
Total contributions receivable	4,650,647	6,752,543
Less: unamortized discount to net present value at 3.25%	(191,221)	(347,585)
Contributions receivable, net	\$ 4,459,426	\$ 6,404,958

NOTE 7: TEMPORARILY RESTRICTED NET ASSETS

Temporarily restricted net assets are available for the following purposes:

<i>August 31,</i>	2014	2013
Scholarships	\$ 2,866,476	\$ 2,427,783
Alumni activities	21,237	24,947
Education	1,138,594	1,932,689
Recruiting	22,322	98,438
Renovations and beautification	9,655	9,655
Other	143,430	120,885
	\$ 4,201,714	\$ 4,614,397

Included in scholarships and education above are \$47,750 and \$6,566, respectively, of amounts designated by the Board of Directors to be awarded for scholarships that have not been disbursed to eligible students as of August 31, 2014.

NOTE 8: PERMANENTLY RESTRICTED NET ASSETS

Permanently restricted net assets represent funds received by the Foundation to be held in perpetuity. The earnings on these funds are designated to fund specific scholarships and are included in temporarily restricted net assets until used. Permanently restricted funds consist of the following at August 31:

Houston Community College Foundation Notes to the Financial Statements

NOTE 8: PERMANENTLY RESTRICTED NET ASSETS (Continued)

<i>August 31,</i>	2014	2013
Investments	\$ 5,475,750	\$ 4,227,384
Contributions receivable, net	4,030,467	5,002,734
	\$ 9,506,217	\$ 9,230,118

NOTE 9: ENDOWMENT FUNDS

The Foundation has a donor-restricted endowment fund which is maintained in accordance with explicit donor stipulations. The Foundation is subject to the Texas Uniform Prudent Management of Institutional Funds Act (the Act) which has been enacted by the state of Texas. The Board of Directors of the Foundation has interpreted the Act as requiring a focus on the entirety of a donor-restricted endowment fund, including the original gift amount and net appreciation. The Act provides guidelines about what constitutes prudent spending and explicitly requires consideration of preservation of the fund.

As a result of this interpretation, the Foundation classifies the amount specified by explicit donor stipulation as an endowment as permanently restricted net assets. This amount is not reduced by losses on investments in the endowment fund or by approved appropriations for expenditure from the fund.

The Foundation has adopted formal investment and spending policies for its endowment assets that attempt to provide the endowment fund with long-term capital growth consistent with the preservation of capital and the annual budget requirements within the withdrawal limitations as established by the Board of Directors.

The Foundation's spending policy provides a minimum investment period of one year for newly created endowment funds before any distributions can occur. The policy also provides for an annual spending rate on endowed funds not to exceed 4% and at no time can the spending rate exceed the actual rate of return, as defined in the policy. Additionally, investment management fees may be paid from the earnings on the endowed funds.

To satisfy its long-term growth objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Earnings on the endowment assets (interest and dividends) are reinvested until the Foundation identifies an amount to be distributed in accordance with its spending policies.

From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donor requires the Foundation to retain as a fund of perpetual donation. Deficiencies of this nature are reported in unrestricted net assets as an aggregate deficiency of the fair value of net endowment assets over permanently restricted net assets.

**Houston Community College Foundation
Notes to the Financial Statements**

NOTE 9: ENDOWMENT FUNDS (Continued)

The following tables describe the Foundation's endowment net asset composition by type of fund and the changes in endowment net assets as of and for the years ended August 31:

Endowment Net Asset Composition by Type of Fund

	2014	2013
Temporarily restricted net assets	\$ 945,059	\$ 337,894
Permanently restricted net assets	5,475,750	4,227,384

Houston Community College Foundation Notes to the Financial Statements

NOTE 10: SUPPORT AGREEMENT AND RELATED PARTY TRANSACTIONS

The Foundation and the System have entered into an agreement in which the System provides administrative support for Foundation activities at a level determined by the System to be appropriate, but only to the extent of availability of funds within the System's budget. Administrative support provided includes office space, an executive director and staff for the Foundation. The total support provided by the System to the Foundation in fiscal years ended August 31, 2014 and 2013 was approximately \$969,000 and \$1,056,000, respectively, and was included in the financial statements as unrestricted in-kind revenue.

Beginning January 31, 2011, the Foundation amended their Memo of Understanding with the System to increase office space rent to \$14,400 per year. This agreement was renewed effective January 1, 2013 to extend the lease term through December 31, 2016 at the same rental rate. Future lease commitments for fiscal years ending total: 2015 – \$14,400, 2016 – \$14,400, and 2017 - \$4,800. Total rent expense paid for the years ended August 31, 2014 and 2013 totaled \$14,400.

During the year, the Foundation remitted scholarship funds to the System to cover tuition, books, and other student fees for specified students of the System. During the years ended August 31, 2014 and 2013, the Foundation remitted \$691,827 and \$537,931, respectively, to the System which is included in scholarship expense in the accompanying financial statements. In addition, for the years ended August 31, 2014 and 2013, the Foundation remitted \$865,825 and \$840,211, respectively, to the System for student organization related costs. There was no scholarship funding due from the Foundation as of August 31, 2014. Total scholarship funding due from the Foundation to the System at August 31, 2013 was \$76,601. This amount has been included in the due to related party balances in the accompanying financial statements.

The Foundation advanced \$182,762 of scholarship funds to the System during the year ended December 31, 2014 and is included in due from related party in the accompanying financial statements. These advances will be used towards scholarships awarded for the Spring 2015 semester.

During each year, the Foundation will receive contributions for the benefit of faculty and staff at the System for various educational needs other than scholarships. Disbursements of these funds totaled approximately \$1.3 million and \$2 million for the years ended August 31, 2014 and 2013, respectively.

The Foundation is the administrator for the System's vending services. In return for administering the contract, the Foundation receives twenty percent of the total revenues from the vending machines before they remit it to the System. Revenue earned from the vending contract totaled \$222,609 and \$200,784 for the years ended August 31, 2014 and 2013, respectively. Disbursements to the System totaled \$192,087 and \$153,619 for the years ended August 31, 2014 and 2013, respectively. The Foundation renewed the contract for five years beginning March 1, 2014. Under the renewed contract, the Foundation is guaranteed an annual commission of \$210,000 to be paid in monthly installments at the end of each month of service. In accordance with the vending contract, funds due from the Foundation to the System at August 31, 2014 and 2013 totaled \$22,880 and \$56,835, respectively. These amounts have been included in the due to related party balances in the accompanying financial statements.

This report is intended for informational purposes only, is subject to changes, and shall not be construed as an admission of liability. Reserve information is revealed only as a recognition of a potential exposure and does not necessarily represent the value of a claim or a decision that the claim should or will be paid.

Note: This report may not reflect recent claim payment transactions (up to 30 days) due to the bulk processing of multiple payments to like payees.

NOTE: If a policy was previously written with Safeco Insurance, the policy's complete loss history will not be available on this report. To obtain the claims history while a policy was written with Safeco, you must access the Loss Runs tool on www.safeconow.com.

Houston Community College

2014-2015 | Fact Book

ACCREDITATION AND APPROVALS

SACS Accreditation

Houston Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate degrees. Contact the Commission of Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the Accreditation of Houston Community College.

State Approvals

The Texas Higher Education Coordinating Board has approved college/university parallel offerings and programs in technical education.

The Texas Workforce Commission has approved programs for veteran education benefits.

PREFACE

The Houston Community College (HCC) 2014-2015 Fact Book provides statistical information about the college district. Data presented in this publication may differ slightly from statistics found in other reports. Such variances may result from differences methodology including the source of information used, the reporting period covered (semester, academic year), or the student base included (semester credit, continuing education, adult education and literacy). The source of the information in each table and graph is cited, along with the date generated, the reporting period, and the students included.

The 2014-2015 Fact Book is available online at <http://www.hccs.edu/oir>.

History of HCC

The Houston Community College District was created under the governance of the Houston Independent School District (HISD) as the result of a public referendum on May 18, 1971. In August of that year, more than 5,700 students enrolled in workforce education courses held at the Houston Technical Institute (housed in what was then HISD's San Jacinto High School). In the following semester, academic transfer classes were added and taught at six HISD locations.

By 1977, HCC had an enrollment of more than 28,000 students and was accredited by the Southern Association of Colleges and Schools (SACS). In 1989, HCC separated from HISD, establishing its own Board of Trustees and taxing authority. HCC restructured in 1991, creating five regional colleges, as well as the College Without Walls, and selected presidents for each. The president of HCC then became the HCC System Chancellor. The Coleman College for Health Sciences replaced the College Without Walls in 2004. Dr. Cesar Maldonado became the ninth Houston Community College Chancellor in May of 2014. By Fall 2014, HCC had over 70,000 students enrolled, and consisted of 22 campuses with a service area of 631.3 square miles.

Since its opening in 1971, more than 2 million students have improved their lives through education and training obtained from Houston Community College. An open-admission public institution, HCC awards associate degrees and certificates in academic studies and career and technology programs. HCC is committed to meeting the needs of its diverse communities, providing academic courses for transfer to four-year institutions, terminal degrees and certificates in more than 70 fields of work; as well as, continuing education and corporate training, lifelong learning and enrichment programs, and adult education.

MISSION, GUIDING PRINCIPLES, VISION, & STRATEGIC INITIATIVES | 2012 - 2015

OUR MISSION

Houston Community College is an open-admission, public institution of higher education offering a high-quality, affordable education for academic advancement, workforce training, career and economic development, and lifelong learning to prepare individuals in our diverse communities for life and work in a global and technological society.

OUR GUIDING PRINCIPLES

Our Guiding Principles direct our interactions with students, the internal and external communities we serve, and each other, giving focus to our primary purpose: devotion to the achievement of student success, defined as timely completion of certificates and degrees that drive real accomplishments in the workplace, at universities, and in society.

- Freedom with Responsibility
- Commitment to Excellence
- Respect for the Person
- Sound Stewardship

OUR VISION (Approved by the HCC Board of Trustees, December 2014)

HCC will be a leader in providing high quality, innovative education leading to student success and completion of workforce and academic programs. We will be responsive to community needs and drive economic development in the communities we serve.

OUR STRATEGIC INITIATIVES

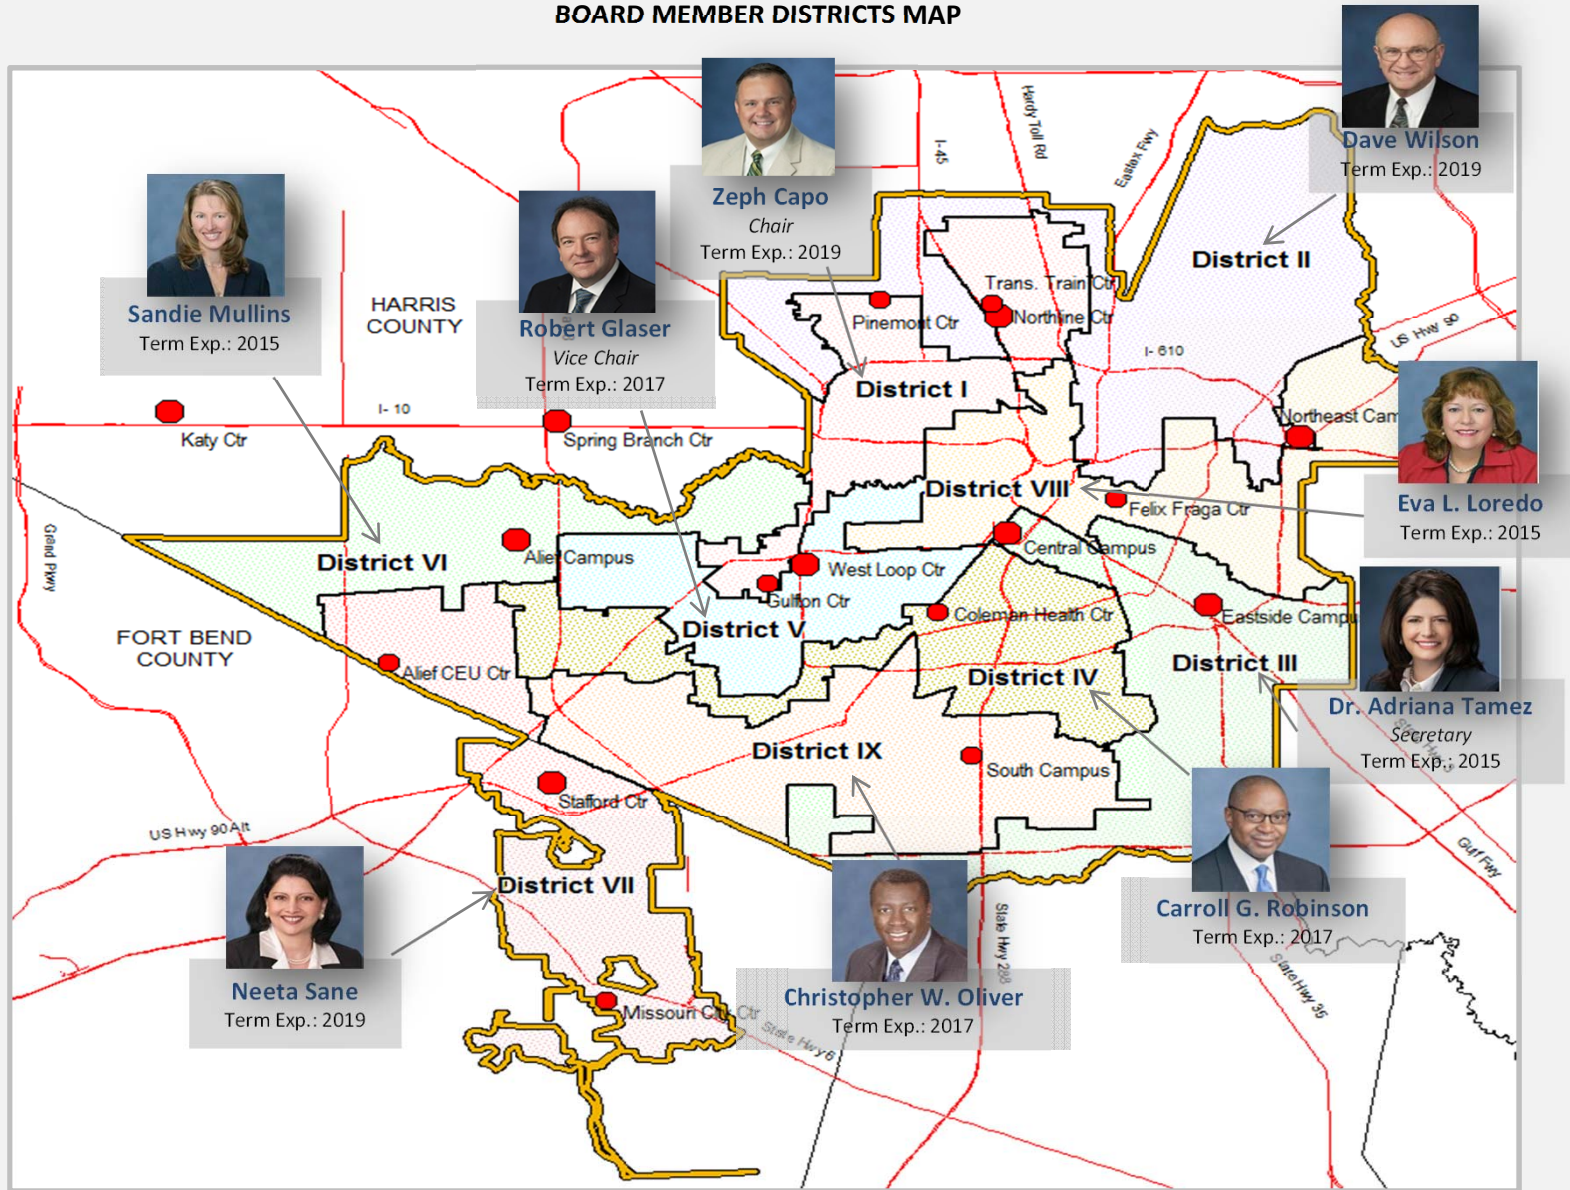

The seven initiatives of the 2012 – 2015 Strategic Plan are:

1. Increase Student Completion through Advanced Educational Opportunities
2. Respond to the Needs of Business and Industry for Skilled Workers
3. Ensure Instructional Programs Provide the Knowledge and Skills Required for 21st Century Learners
4. Enrich Institutional Capacity for Faculty and Staff Professional Development and Student Leadership Development
5. Support Innovation as a Means to Improve Institutional Resilience
6. Cultivate an Entrepreneurial Culture Across the Institution
7. Leverage Local and International Partnerships for Institutional and Community Development

Approved by the HCC Board of Trustees, June 22, 2012.

Source: HCC OIR DataMart Files, End of Term, 2010 - 2014.

-3%

5-Year change in FTE.

Full-Time Equivalent (FTE) Student (SCH)

IPEDS Method: The number of FTE (Full-time equivalent) students is calculated based on fall semester credit hour student headcounts as reported by the HCC on the IPEDS Enrollment report. One full-time equivalent of the HCC's part-time enrollment is calculated by taking the total semester credit hours attempted divided by 12. These are then added to the full-time enrollment headcounts to obtain an FTE for all students enrolled in the fall.

SAFETY AND LOSS CONTROL DEPARTMENT

SAFETY PLAN/MANUAL

Management Safety Statement

In fulfilling its educational mission, the Houston Community College System recognizes a commitment to its employees and students to provide a safe and healthy workplace, free from recognized hazards to the greatest degree possible.

Since injuries and property loss through accidents are needless, costly, and preventable, the HCC System will strive for the elimination of all accidents and health hazards by the establishment of a safety and health program based on fundamental safety concepts.

Two of the safety program's basic responsibilities are the establishment of emergency procedures to diminish the effect of catastrophic events; and the prevention of accidents; whether they involve employee injuries, student injuries, or property damage. Administrators will therefore provide full support for all safety procedures, training, and hazard elimination practices necessary to achieve these goals.

Supervisory personnel are directly responsible for the instruction of all employees under their jurisdiction in regard to proper procedures and safe methods to be utilized in performing duties in the working and instructional environment; for taking immediate corrective measures to eliminate hazardous conditions; and for implementing practices for the prevention of all accidents.

Each employee (full-time or part-time administration, instructor or staff person) shall cooperate in every respect with the system's safety and loss control program. Some of the major points of the college system's program are as follows:

- Employees must follow recognized safe work practices as a condition of employment within HCCS. Students must abide by safe practices and procedures established for the classroom, or other instructional environment.
- Hazardous conditions and other safety concerns must be reported to the responsible supervisor immediately. Supervisors will take appropriate action to initiate corrective measures.

Each System employee has the responsibility for his or her own safety, as well as the safety of fellow employees and the student members of our college community. Employees must become familiar with the potential hazards of their jobs and do what is necessary to ensure their safety. By these means, we can achieve the safe working and learning environment due all members of our college community.

SAFETY AND LOSS CONTROL DEPARTMENT

SECTION II: EMERGENCY DIRECTION AND CONTROL

I. PURPOSE

A. These procedures contain planning, procedural, and emergency preparedness guidelines established to provide orderly management of emergency events.

1. An emergency or a disaster may occur at any time of the day or night.
2. The succession of events in an emergency are not predictable, hence published support and operational plans will "serve only as a guide" and a checklist, and may require field modification in order to meet the requirements of the emergency.
3. Disasters may affect residents in the geographical location; therefore, city, county, and federal emergency services may be expected to be unavailable during the initial hours or days of an event.
4. A major emergency may be declared if information indicates that such a condition is developing or is possible

B. The basic emergency procedures contained herein are provided in order to enhance the protection of lives and property through effective planning and use of college and community resources.

C. Whenever an emergency affecting the college reaches proportions THAT CANNOT BE HANDLED BY ROUTINE MEASURES, the Chancellor and/or Campus President or designee may declare a state of emergency and these contingency guidelines may be implemented.

II. SCOPE

These procedures apply to all personnel employed by and all property owned or controlled by Houston Community College System.

III. PROCEDURES AND RESPONSIBILITIES

A. Employee Response to Emergency

1. most readily available and equipped to respond to the situation. Immediate response to safeguard life and property is made at the administrator, supervisor and employee levels
2. Factors involving the response to emergency situations include the nature, location, and extent of the event.
3. Additional factors include the impact on college or system operations/ facilities.
4. Considerable attention must be given to elements of risk posed to persons and property, including employees who may find themselves in a position to respond to such events.
5. Direction and coordination should flow from the highest authority level available consistent with their level of responsibility.

B. Administration Control

1. To the extent each situation permits the administration and management of emergency response decisions shall be made at the college and/or system administration levels.
2. The Chief of Police (or designee) shall have primary responsibility involving incidents posing immediate risk to life.
3. As the need for immediate action to protect life or property diminishes, the level of decision-making increases to higher authority.
4. As an event progresses, and as time permits, direction and coordination of the system/college response may be assumed by higher System and College Administration authorities.
5. The System and colleges must develop contingency and recovery plans for catastrophic events.

A. The Chancellor shall immediately cause notification of all necessary members of the Emergency Response Management Team, which consists of the following personnel:

1. Chancellor or designee
 2. Presidents
 3. Emergency Coordinator – Police Chief or designee
 4. Human Resources
 5. Student Affairs
 6. Damage Control – Vice Chan./Director of Facilities & Planning
 7. Public Relations
 8. Safety Department
1. Operations Command Post – When an emergency occurs, or is eminent, it shall be the responsibility of the Police Chief to set up and staff an appropriate emergency command post as directed.
 2. Executive Command Post – Pre-need identification shall be made for the establishment of a primary Executive Command Post. The Emergency Response Team shall staff the command post as directed by the Chancellor or designee.
 - a. At least two alternate locations shall be identified in the event the primary location is unavailable.
 - a. Availability of emergency power resources
 - b. Communication resources – “outside” telephone.
 - c. Safety considerations offered by facility during any anticipated event.
 - d. Accessibility and accommodations for staff.
 3. Consideration in selection shall be given to:

B. Team members may coordinate, as necessary, with the Emergency Coordinator for implementation and coordination of the district operation plan and support as it pertains to their area.

C. Team members are to be kept in constant communication with the Emergency Command Post. General responsibilities of the team members are listed below.

D. Emergency Command Posts

- A. Responsible for the overall monitoring of the emergency responses.
- B. Contacts members of the Emergency Response Team and apprises them of the nature of the emergency.
- C. Works with Emergency Coordinator and others in assisting the emergency and preparing the specific response.
- D. Declares and ends, when appropriate, the campus state of emergency.
- E. Notifies and conducts liaison activities with the administration, governmental agencies, emergency response team, and others as necessary.
- A. Establishes Emergency Command Post with direction from Chancellor.
- B. Responsible for the overall direction of the emergency responses.
- C. Determines the type and magnitude of the emergency and establishes the appropriate emergency command post.
- D. Initiates immediate contact with the Chancellor and administration, begins assessment of situation.
- E. Notifies and utilizes Police Department in order to maintain safety, security, and order.
- F. Notifies and conducts liaison activities with appropriate outside organizations, such as fire, police, Office of Emergency Services, etc.
- G. Insures that appropriate notification is made to off-campus personnel as necessary.
- H. Performs other related duties as may be directed by virtue of the campus emergency.
- I. The Emergency Coordinator, Damage Control and Risk Management departments prepare and submit a report to the Chancellor appraising the final outcome of the emergency regarding damage.

IV. EMERGENCY RESPONSE MANAGEMENT TEAM ACTIVATION

V. CHANCELLOR OR DESIGNEE

VI. EMERGENCY COORDINATOR

VII. HUMAN RESOURCES

(To be completed by HR)

VIII. STUDENT AFFAIRS

(To be completed by SA)

IX. ENVIRONMENTAL

(To be completed by Safety Department)

X. PURCHASING AND MATERIALS MANAGEMENT

- A. Emergency procurement of materials and services can be arranged in direct support of any college system emergency.
- A. Provides equipment and personnel to perform shutdown procedures, hazardous area control, barricades, damage assessment, debris clearance, emergency repairs and equipment protection.

- B. Provides vehicles, equipment and operators for movement of personnel and supplies, assign vehicles as required by the Emergency Response Team for emergency use.
- C. Obtains the assistance of utility companies as required for emergency operations.
- D. Furnishes emergency power and lighting as required.
- E. Surveys habitable space and relocates essential services and functions.
- F. Provides facilities for emergency generator fuel during actual emergency or disaster periods.
- G. Provides for storage of vital records at an alternate site; coordinates with building and area coordinators for liaison and necessary support.
- A. Maintains the Police Department in a state of constant readiness.
- B. Notifies college administrators of major emergencies.
- C. Monitors campus emergency warning and evacuation systems.
- D. Takes immediate and appropriate action to protect life and property and to safeguard records as necessary.
- E. Obtains assistance from the city, county, state, and federal government as required.
- F. Provides traffic control, access control, perimeter and internal security patrols and fire prevention services as needed.
- G. Provides and equips an alternate site for Emergency Command Post.

XI. DAMAGE CONTROL

XII. CAMPUS POLICE AND COMMUNICATIONS

XIII. PUBLIC INFORMATION

(External Communication)

- A. Establishes liaison with the new media for dissemination of information as requested by the Chancellor.
- B. Establishes liaison with local radio and TV services for public announcements.
- C. Arranges photographic and audio-visual services, if requested by the Chancellor.
- D. Advises Chancellor or designee of all news concerning the extent of disaster affecting the College System.
- E. Prepares news releases for approval and releases to the media information concerning the emergency.

XIV. RISK MANAGEMENT

- A. Notifies insurance carrier, if applicable.
- B. Responsible for working with adjusters/appraisers in evaluating scope of damages.
- C. Assist injured employees as needed
- D. Assist departments in recording losses and costs associated with temporary repairs or replacement of damaged items.
- E. Notifies Chancellor of the extent of injury sustained to personnel and damage incurred to property.

XV. BUILDING/FACILITY COORDINATORS

Buildings may have Building/Facility Coordinator appointed by the President or designee. The Building/Facility Coordinator will have the following general responsibilities prior to and during an emergency:

- A.** Evaluate, survey and estimate their assigned building or activity in order to determine the impact a fire or tornado could have on their facility. Work orders to reduce hazards and minimize accidents should be promptly submitted to Facility Maintenance operation.
- B.** Important: Inform all students, staff and faculty to conform to building evacuation guidelines during any emergency and to report to a designated campus assembly area outside the building where a head count can be taken.
- C.** Building evacuation information shall be distributed to all employees with follow-up discussions, on-the-job training or explanations, as required. Contact the Safety Director for assistance.
- D.** Time shall be allowed for training employees in emergency techniques such as fire extinguisher usage and building evacuation procedures.
- E.** Maintain emergency telephone communications with officials from their own activity (or from an alternate site if necessary).

XVI. FACULTY, CHAIRS AND DEANS

- A.** Educate their students and/or employees concerning emergency procedures as well as evacuation procedures for their building and/or activity.
- B.** Inform their students and/or staff of emergency procedures as outlined in the appropriate safety and emergency plans.
- A.** Each building shall be under the direction of an appropriate number of Fire Wardens to provide direction for the evacuation of occupants in the event of an emergency requiring such a response.
- B.** Each Fire Warden shall be familiar with the fire safety plan, the location of exits and the location and operation of any available fire alarm systems or notification procedure established for their building.

XVII. FIRE WARDENS

Houston Community College System

SAFETY AND LOSS CONTROL DEPARTMENT

SECTION III: NOTIFICATIONS AND CONTACTS

This listing will provide a ready reference of important numbers, and as a reminder of the individuals and offices we may need to notify concerning emergencies. This information should be included on the “Quick Reference Version” of this Safety Plan.

EMERGENCY TELEPHONE NUMBERS

IMMEDIATE AND LIFE-THREATENING EMERGENCY

1. CALL DIRECT TO 911 (remember-dial “9” for outside line if necessary)
2. **Stay on the telephone – DO NOT HANG UP UNTIL TOLD – give complete information for responding emergency personnel. Specify nature of emergency: “FIRE,” “POLICE,” “AMBULANCE (EMS)”**
3. If time permits, **also call HCCS Police at 718-8888** (alternate-713-528-5115)

OTHER POLICE – SECURITY SERVICE

Reports of crime and requests for Police, Security and Safety services on Houston Community College property which are not immediately life threatening should be made to college authorities. HCC is party to a Memorandum of Understanding whereby HCCS Police are responsible for primary response and initial reporting of criminal activity on HCC property.

The HCCS POLICE DEPARTMENT	24-HOUR police and security CENTER	713-718-8888 713-528-51145

Houston Community College System

SAFETY AND LOSS CONTROL DEPARTMENT

SECTION IV: EMERGENCY PLAN FOR FIRE

All College facilities have developed fire and emergency evacuation plans. Each building has written plans based on uniform guidelines developed for all HCC facilities. These plans identify fire wardens and detailed emergency notification methods utilized in the building. Evacuation procedures and assembly areas are also identified.

The following sections provide procedural details of the uniform fire plan and general fire safety practice.

- Section 4-1: Fire Safety
- Section 4-2: Emergencies Involving Fire
- Section 4-3: Flammable and Combustible Materials

SECTION 4-1: FIRE SAFETY

Fire prevention guidelines are established to reduce the incidence of fires by eliminating opportunities for ignition of flammable materials and recommending practices that are conducive to a “fire-free” environment.

Fire Extinguishers

A portable fire extinguisher is a “first aid” device and is very effective when used while the fire is small. The use of a fire extinguisher that matches the class of fire, by a person who is well trained, can save both lives and property. Portable fire extinguishers must be installed in workplaces regardless of other fire fighting measures. The successful performance of a fire extinguisher in a fire situation largely depends on its proper selection, inspection, maintenance, and distribution.

Classification of Fires and Selection of Extinguishers

Fires are classified into five general categories, depending on the type of material or fuel involved. The type of fire determines the type of extinguisher that should be used to extinguish it.

- Class A fires involve materials such as wood, paper, and cloth which produce glowing embers or charred material.
- Class B fires involve flammable gasses, liquids, and greases, including gasoline and most hydrocarbon liquids that must be vaporized for combustion to occur.
- Class C fires involve fires in live electrical equipment or in materials near electrically powered equipment.
- Class D fires involve combustible metals, such as magnesium, zirconium, potassium, and sodium.
- Class K fires in cooking appliances that involve combustible cooking media (vegetable or animal oils and fats).

Extinguishers will be selected according to the potential fire hazard, the construction (materials) and occupancy of facilities, the asset to be protected, and other factors pertinent to the situation.

Location and Marketing of Extinguishers

Extinguishers will be conspicuously located, easily identified, and readily accessible for immediate use in the event of fire. They will be located along normal paths of travel and egress. Wall recesses and/or flush-mounted brackets will be used as extinguisher locations whenever possible. In most cases extinguishers will be located in hallways or in common areas and not in rooms. They shall be placed just outside of a room and allow accessibility to the room occupants as well as other occupants of the building.

Extinguisher should not be stored in locked rooms or offices where other extinguishers are not provided. Extinguishers will be clearly visible. In locations where visual obstruction cannot be completely avoided, directional arrows will be provided to indicate the location of extinguishers. Extinguisher classification markings will be located on the front of the shell above or below the extinguisher nameplate.

Condition

Portable extinguishers will be maintained in a fully charged and operable condition. They will be kept in their designated locations at all times when not being used. When extinguishers are removed for maintenance or testing, a fully charged and operable replacement unit will be provided. Discharged extinguishers will not be allowed to remain in an area where it might be mistaken for a fully charged and serviceable extinguisher.

Mounting and Distribution of Extinguishers

Extinguishers will be installed on hangers, brackets, or in cabinets so that the top of the extinguisher is not more than five (5) feet above the floor. Extinguishers having a gross weight not exceeding 40 pounds will be so installed that the top of the extinguisher is not more than 3-1/2 feet above the floor. Extinguishers mounted in cabinets or wall recesses will be placed so that the extinguisher operating instructions face outward. The location of such extinguishers will be made conspicuous by marking the cabinet or wall recess in a contrasting color that will distinguish it from the normal décor.

Extinguishers must be distributed in such a way that the amount of time needed to travel to their location and back to the fire does not allow the fire to get out of control. National Fire Protection Association Standard, NFPA 10, requires that the travel distance for Class A and Class D extinguishers not exceed 75 feet. The maximum travel distance for Class B extinguishers is 50 feet because flammable liquid fires can get out of control faster than Class A fires. There is no maximum travel distance specified for Class C extinguishers (rated for electrical exposure), but they must be distributed on the basis of appropriate patterns for Class A and B material hazards. The maximum travel distance for Class K extinguishers where provided shall not exceed 30 feet. It is required that no extinguisher have a travel distance more than 75 feet.

Inspection and Maintenance

Fire extinguishers must be inspected monthly by the building manager or his/her designee. The HCCS Police Department has established a program to assist in this inspection process. This inspection should include a visual check of the:

1. Hose (not cracked)
2. Pressure gauge (in the green area)
3. Container (not damaged or dented)
4. Location (is the unit missing)
5. Proper mounting
6. Accessibility of the extinguisher
7. Current annual inspection tag

This requires an inventory of the extinguishers assigned to the building to be used as a checklist. A form listing all fire extinguishers by location for the purpose of conducting the monthly inspection will be provided. Once an extinguisher is selected, purchased, and installed, an inventory sheet for that extinguisher will be established. Copies of this documentation should be retained at the facility by the college operations officer or person in charge of the building or site.

Fire Safety Inspections/Housekeeping

The college operations officer and safety committees (or designees) are responsible for conducting general work site surveys on a basis established by agreement, not less than quarterly (insurance loss control recommends monthly). These surveys should include observations of work site safety and housekeeping issues and should specifically address proper storage of chemicals and supplies, unobstructed access to fire extinguishers, and emergency evacuation routes. Also, they should determine if an emergency evacuation plan is present in work areas and that personnel are familiar with the plan.

In addition, the HCC Safety Department and/or system insurance loss control representatives will conduct fire inspections on a random basis. All deficiencies noted during these inspections should be brought to the attention of the college operations officer immediately and a plan of action developed to correct the deficiency.

Storage

All storage rooms must be maintained in an orderly manner. Stored combustible materials should be kept to a minimum. This means the following good housekeeping practices must be employed:

- Loose storage (paper, books, or files) must be kept off floors and either put into boxes or stacked in an organized manner on shelves.
- Aisles at least 24" wide, must be maintained to access storage and must be clear and free of tripping hazards at all times. These aisles will also act as a route of escape in an emergency.
- Storage may not be stacked within 18" of a sprinkler head in areas that are protected by an automatic sprinkler system. In areas not protected by sprinklers, storage must be 24" from the ceiling.

Electrical Safety

The following good practices must be applied to all electrical appliances/equipment:

- All electrical appliances/equipment must be in good repair and cords and exterior cases must be free of damage.
- All appliances/equipment must be directly plugged into wall outlets or power strips equipped with either a fuse or circuit breaker.
- All building electrical equipment (e.g., circuit breakers, distribution panels, outlets, lights, etc.) must be free from damage and appropriately covered (e.g., wall plates or junction box covers in place, circuit breaker panel doors in place, etc.) and must be accessible (not blocked) at all times.
- All wiring must be routed above the ceiling or housed in conduit below the ceiling.
- Multi-plug adapters should not be used.
- Extension cords may only be used on a temporary basis.

Space Heaters

Only space heaters that are approved by Underwriter Laboratories (UL) or Factory Mutual (FM) can be used in offices, labs, or other enclosed areas. No fuel-supported heaters can be used. Heaters should have ceramic elements and a tilt switch. The heaters must be in good condition (no frayed cords, etc.). Areas where heaters are used must be open and free from combustible materials (i.e., paper, wood, cloth, etc.). Heaters must be turned off when the area is unoccupied.

Exits

- Exits, including main corridors, stairways and stairwells, shall not be obstructed in any manner and shall remain free of any material that would obstruct the exit or render the exit hazardous.
- All main building corridors must have a minimum 44" clear width maintained at all times.
- Storage may not be located in corridors, even temporarily.

Mechanical Rooms

Mechanical and electrical rooms are not storage rooms. They are only intended to house equipment that supplies services to the building (heating, cooling, electrical distribution, communications, etc.). Access to all equipment must be unimpeded and the spaces must be free of any extraneous material. Mechanical rooms must be locked at all times. Keys for these areas are under the control of the college operations officer and maintenance department.

Theatrical Productions

- No scenery, props, decorations, seating equipment, or other obstructions may be placed in a fashion that would prohibit the automatic fire curtain from dropping completely to the floor of the stage.
- No scenery, props, decorations, displays, seating equipment, or packing equipment may be placed so that it in any way obstructs an exit.
- Exit lights must be illuminated and visible during any production.
- Only non-combustible materials or fire retardant pressure-treated wood may be used for stage scenery or props on the audience side of the proscenium arch. Where possible, flame retardant materials should be used in set design.
- Non-flame retardant materials can be treated with flame retardant.
- Backdrops, curtains, draperies, decorations and similar furnishings/materials shall be flame resistant.

The use of pyrotechnics or theatrical smoke must have the approval of the Fire Marshal and the Director of Safety and Loss Control

SECTION 4-2: EMERGENCIES INVOLVING FIRE

QUICK REFERENCE

NOTIFICATION in the event of fire:

- o Call 911 and be prepared to relay the exact physical street address:

(example)

“There is a fire at the Houston Community College building located at 1234 Smith St. near the corner of Main.”

- o Also, give specific location within a building:

“The fire is on the second floor in room 234.”

- o Call HCCS Police Department at 718-8888 and sound local fire alarm if available.

If you see or smell smoke or gas:

- o Call HCCS Police at 718-8888
- o Sound local fire alarm if available
- o Initiate voice notification if no alarm available

If you encounter smoke or flames:

- o Crawl low under the smoke to get to clean air
- o Test doors before you open them by kneeling or crouching at the door.
- o Reach up as high as you can and touch the door and knob with the back of your hand.
 - Door is hot, use another escape route
 - Door is cool, open it cautiously and continue along your escape route.
- o Isolate FIRE by closing off doors if possible
- Evacuate using stairwells, not elevators
- Follow directions from those in authority
- **STAY CALM**
- Use fire extinguisher only if you have been trained and fire is small
- o Once you are safe and immediate emergency procedures have been followed, notify appropriate administrative authority.

Fire Alarms

In the event of a fire emergency, a fire alarm will sound for the building. Some buildings do not have audible fire alarms. A plan to alert the occupants of the need to evacuate should be developed and shared with occupants.

Evacuation Routes

- Learn at least two escape routes, and emergency exits from your area.
- Never use an elevator as part of your escape route.
- Learn to activate a fire alarm.
- Learn to recognize alarm sounds.
- Take an active part in fire evacuation drills.

Emergency Egress

Every exit will be clearly visible, or the route to it conspicuously identified in such a manner that every occupant of the building will readily know the direction of escape from any point. At no time will exits be blocked. Stairwells shall not be used to store chairs, desk, supplies or any other materials. Any doorway or passageway that is not an exit or access to an exit but that may be mistaken for an exit, will be identified by a sign reading "Not An Exit" or a sign indicating its actual use (i.e., "Storeroom"). A readily visible sign will mark exits and accesses to exits. Each exit sign (other than internally illuminated signs) will be illuminated by a reliable light source. No exits shall be chained during periods the building is occupied.

Occupant Emergency Plan for Persons with Disabilities

The department supervisor is assigned the responsibility of developing a plan to assist persons with disabilities under their supervision. This plan should enlist the input of the disabled person. The plan should take into consideration the building, the work location, the type of disability, assistance needed, and the availability of assistance. No one is required to endanger him/herself in order to effect or assist with the evacuation of others, but everyone has the duty to ensure that other occupants are aware of the emergency. Similarly, it is expected that individuals will aid anyone requiring assistance to safely evacuate.

Areas of safe refuge should be identified within multi-story buildings (typically inside the protected emergency egress stairways), which wheelchair users can reach on their own, and where they can safely await assistance from public safety personnel in a position that does not impede or prevent emergency egress for others. Additional information for evacuation of disabled persons may be found in Section 5-2, Persons with Disabilities.

Note: Some individuals, confined to a wheelchair, can be injured by being lifted or carried by an untrained person.

Assembly Points

A sufficient number of assembly points shall be identified as part of the building's supplemented evacuation plan. Assembly points are pre-identified locations where evacuees can safely assemble following an evacuation. Locations selected should be at least 300 feet from the evacuated building and away from emergency operations or support resources that may respond to the situation. Supervisors and other responsible authority may take "head counts" to assure that all persons are accounted for. Information and instruction should be made available at the assembly points concerning the emergency situation and what steps should be taken by employees and students.

GENERALLY

Should evacuation be necessary, go to the nearest exit or stairway and proceed to a pre-designated meeting area (assembly points) outside the building. Most stairways are fire-resistant and present barriers to smoke if the doors are kept closed. Do not use elevators. Should the fire involve the control panel of the elevator or the electrical system of the building, power in the building may be cut and you could be trapped between floors. Also, the elevator shaft can become a flue, lending itself to the passage and accumulation of hot gases and smoke generated by the fire.

Fire Emergency Procedures

If you discover a fire:

- Activate the nearest fire alarm.
- Notify the emergency responders by dialing 911. Give your location, the nature of the fire, the location of the fire, and your name.
- If no fire alarm system exists in the building, verbally sound the alarm as you exit the building.
- Fight the fire with a fire extinguisher **ONLY IF**:
 - o The fire department has been notified of the fire, AND
 - o The fire is small and confined to its area of origin, AND
 - o
 - o You have a way out and can fight the fire with your back to the exit, AND
 - o You have the proper extinguisher, in good working order, AND
 - o You know how to use it.

If you are not sure of your ability or the fire extinguisher's capacity to contain the fire, get out and leave the fire fighting to the experts.

If you hear a fire alarm or call to evacuate:

- Evacuate the area. Close windows, turn off gas jets, and close doors as you leave.
- Leave the building and move away from exits and out of the way of emergency operations.
- Assemble in a designated area.
- Report to the supervisor so he/she can determine that all personnel have evacuated your area.
- Remain outside until competent authority (fire department, HCCS Police, Security, HCCS administrator) states that it is safe to re-enter.

SECTION 4-3: FLAMMABLE AND COMBUSTIBLE MATERIALS

Substitution

In some instances relatively safe materials may be substituted for flammable liquids in order to reduce the risk of fires. This should be done wherever possible. Any substituted material should be stable and nontoxic and should either be nonflammable or have a high flashpoint.

Storage

Flammable and combustible liquids require careful handling at all times. The proper storage of flammable liquids within a work area is very important in order to protect personnel from fire and other safety and health hazards.

Definitions:

- o “Flashpoint” means that the minimum temperature at which a liquid gives off vapor within a test vessel in sufficient concentration to form an ignitable mixture with the air near the surface of the liquid.
- o “Flammable liquid” means any liquid having a flashpoint below 100 degrees Fahrenheit. This includes Class I liquids.
 - “Class IA” shall include liquids having flashpoints below 73 degrees Fahrenheit and having a boiling point below 100 degrees Fahrenheit.
 - “Class IB” shall include liquids having flashpoints below 73 degrees Fahrenheit and having a boiling point at or above 100 degrees Fahrenheit.
 - “Class IC” shall include liquids having flashpoints at or above 73 degrees Fahrenheit and below 100 degrees Fahrenheit.
- o “Combustible liquid” means any liquid having a flashpoint at or above 100 degrees Fahrenheit. This includes Class II and Class III liquids.
 - “Class II liquids” shall include those with flashpoints at or above 100 degrees Fahrenheit and below 140 degrees Fahrenheit.
 - “Class IIIA liquids” shall include those with flash points at or above 140 degrees Fahrenheit and below 200 degrees Fahrenheit.
 - “Class IIIB liquids” shall include those with flashpoints at or above 200 degrees Fahrenheit.

Storage Inside Buildings

Approved metal storage cabinets should be utilized for storage of flammable substances where appropriate. Where approved storage cabinets or rooms are not provided, inside storage will comply with the following basic conditions:

- The storage of any flammable or combustible liquid shall not physically obstruct a means of egress from the building or area.
- Containers of flammable or combustible liquids will remain tightly sealed except when transferred, poured or applied.
- Remove only that portion of liquid in the storage container required to accomplish a particular job.
- If a flammable and combustible liquid storage building is used, it will be a one-story building devoted principally to the handling and storing of flammable or combustible liquids. The building will have 2-hour fire-rated exterior walls having no opening within 10 feet of such storage.
- Flammable paints, oils, and varnishes in 1 or 5-gallon containers, used for building maintenance purposes, may be stored temporarily in closed containers outside approved storage cabinets or room if kept at the job site for less than 10 calendar days.

- Portable containers used for storage of gasoline must be a Type I or Type II safety can. Proper bonding procedures must be followed where warranted.

Elimination of Ignition Sources

All nonessential ignition sources must be eliminated where flammable liquids are used or stored. The following is a list of some of the more common potential ignition sources:

- Open flames, such as cutting and welding torches, furnaces, matches, and heaters—these sources should be kept away from flammable liquids operations.
- Cutting or welding on flammable liquids equipment should not be performed unless the equipment has been properly emptied and purged with a neutral gas such as nitrogen.
- Chemical sparks—these sparks can result as a reaction of two or more substances.
- Electrical sources of ignition such as d.c. motors, switches, and circuit breakers—these sources should be eliminated where flammable liquids are handled or stored. Only approved explosion-proof devices should be used in these areas.
- Mechanical sparks—these sparks can be produced as a result of friction. Only non-sparking tools should be used in areas where flammable liquids are stored or handled.
- Static sparks—these sparks can be generated as a result of electron transfer between two contacting surfaces. The electrons can discharge in a small volume, raising the temperature to above the ignition temperature. Every effort should be made to eliminate the possibility of static sparks. Also, proper bonding and grounding procedures must be followed when flammable liquids are transferred or transported.

Removal of Incompatibles

Materials that can contribute to a flammable liquid fire should not be stored with flammable liquids. Examples are oxidizers and organic peroxides, which, on decomposition, can generate large amounts of oxygen.

Flammable Gases

Generally, flammable gases pose the same type of fire hazards as flammable liquids and their vapors. Many of the safeguards for flammable liquids also apply to flammable gases; other properties such as toxicity, reactivity, and corrosiveness also must be taken into account. Also, a gas that is flammable could produce toxic combustion products. Compressed gas cylinders must be properly stored, segregated and secured.

COMMENTS AND SUGGESTIONS ARE ENCOURAGED TO:
